

Checklist

For a successful outdoor event, you'll need:-

a) Unique outdoor venue –

Location is everything. Finding an outdoor venue is the far most important task on your list.

b) Logistics provider -

Schedule meetings with the Nanyang Inc. team and get their input on the venue you are considering. We will advise and inform the restrictions that exist at the venue. Certain venues will incur extra expenses.

c) Caterer –

Source for a reputable and potential caterer or caterer who already has outdoor catering experience. We will recommend caterers to you if you can't find one.

d) Florist / Floral designer (if needed) –

Floral decorations create the extra elegance and beauty to the event. They will transform your entire venue and setup with the overall finish touch according to your desired theme. If you have trouble finding one, we will recommend some to you.

These are the 4 key things you're required to hold an outdoor event. Have fun and good luck!
